

ShopMate

CLEMCO[®]
INDUSTRIES CORP.

★★★★
MADE IN THE
USA

ISO 9001 Certified

The Shop Mate™ is a hopper suction-feed, entry-level, intermittent-use cabinet featuring a 48" wide x 26" deep x 26" high working chamber with dual side doors and a flip-up, front-access panel for loading heavy parts. A 120 cfm dust-bag drum collector optimizes visibility inside the cabinet while blasting.

The Shop Mate™ has a spring-operated, quick-drain hopper designed to accommodate a standard-size 5-gallon bucket. This feature makes disposing of worn-out media a quick, simple, and clean process. Optional drum-liner bags ease disposal.

The Shop Mate™ comes with a No. 4 BNP® Gun and a 5/16" orifice ceramic nozzle, but can be used with a long-wearing tungsten-carbide or boron-carbide nozzle when aggressive media is used.

A conveniently located, easy-to-use lens on a roll prolongs the life of the view-window glass, protecting its interior surface.

Shop Mate™ Features

High-Output Fluorescent Lighting	●
Large Safety-Glass Viewing Window	●
14-gauge Steel Construction	●
